We take you ahead!

elringklinger
Engineered Plastics

Our core competencies for food & pharma

Manufacturing to the highest standards

Our material

**Bellow for
Filling Valves**

**Bellow made of PTFE
with PEEK-reinforced
flanges**

**Radial shaft seal
without housing for
Packing Machines**

**Pipes/tubings
for use in
Filling machines**

Our experience:

Complete production process from semi-finished product to finished product.

- Material development and compounding in-house
- Extrusion
- Injection molding
- Machining
- Clean room production
- Hygienic design (CIP, SIP)
- Production of complex assemblies

Certificates:

- GMP
- ISO 9001
- DIN EN ISO 14001
- EN ISO 13485
- ISO 50001

In food & pharmaceutical applications, critical media or high temperatures are often used in the cleaning process. Conventional materials often reach the limits of their applicability. We offer a large number of approved materials for these applications:

High performance plastics:

- PTFE
- PEEK
- PFA
- FEP
- Moldflon®-materials

Characteristics:

- High reverse bending strength and long life time
- High temperature resistance
- Almost universal chemical resistance

Food approvals:

- GMP (Good Manufacturing Process)
- FDA
- EU 10/2011, EG 1935/2004
