## Machine Tools

ElringKlinger Kunststofftechnik  
We take you ahead!

**elringklinger**  
Engineered Plastics

## Our core competencies for Machine Tools

## Manufacturing to the highest standards

## Our material

**Spring Energized Seal**  
in workpiece tables,  
tool turrets and laser  
machines

**ElroSeal™**  
**Rotary Shaft Seals**  
for powered tools

**Tubes**  
for media transport  
(also high purity)

**Multifunctional Bellow**  
for beam guidance in  
laser machines

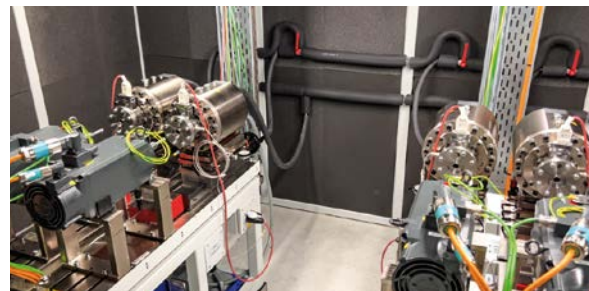

### Our experience:

Complete production process from semi-finished product to finished product.

- Material development and compounding in-house
- Extrusion
- Injection molding
- Machining
- Clean room production
- Hygienic design (CIP, SIP)
- Production of complex assemblies

Certificates:

- ISO 9001
- GMP
- DIN EN ISO 14001
- EN ISO 13485
- ISO 50001

Test bench ElroSeal™ rotary shaft seal

Driven tools pose special challenges to shaft sealing due to their high speed. Low power dissipation and long service life are our specialty.

PTFE reflects light to a high degree and burns without leaving solids behind. These two properties are particularly in demand in sensitive laser applications.

High-performance plastics:

- PTFE
- PFA
- FEP
- PEEK
- Moldflon®-materials

Laser technology of the future
